RULES AND REGULATIONS

AMENDMENT TO TARIFF SHEET OF MUHLENBERG COUNTY WATER DISTRICT

Effective the date of approval by the Public Service Commission for the Commonwealth of Kentucky pursuant to KRS 278.170(2), the three (3) commissioners of the Muhlenberg County Water District will be authorized to receive free water for as long as they are commissioners of the Muhlenberg County Water District. The free water shall be in addition to the salary provided for by KRS 74.020(5).

The above amendment to the tariffs of the Muhlenberg County Water District was approved at a regular commission meeting on the 13 day of May, 1985.

TARIFF FOR MOBILE HOME PARKS

From and after the effective date hereof Mobile Home Parks situated in Muhlenberg County, Kentucky, and served by the Muhlenberg County Water District, Dean Drive, Greenville, Kentucky, shall have individual residential meters for each mobile home situated in the trailer park in compliance with all the requirements of the District.

Any existing mobile home park which is presently master metered shall on or before January 15, 2000, install residential meters for each mobile home in the trailer park which shall be installed in accordance with the Rules and Regulations of the Muhlenberg County Water District and at the cost per meter on the present tariff of the District. Any mobile home park failing to do so prior to January 15, 2000, may have water cut off until compliance is obtained. This action is sought because it has been determined that water has been diverted around a master meter for a mobile home park thereby allowing the mobile home park to receive water for the park that was not metered and thus not being paid for.

CERTIFICATION OF SERVICE

**RATE
PER UNIT**

The following shall be the line extension policy of the
Muhlenberg County Water District from and after the date approved
by the Public Service Commission:

1. Normal extension. An extension of fifty (50) feet or less
shall be made by the District to its existing distribution main
without charge for a prospective customer who shall apply for and
contract to use service for one (1) year or more.

2. Other extensions.

(a) When a District customer desires an extension of the
utility's main to serve an applicant or group of applicants and it
requires more than fifty (50) feet per applicant, the District
shall require the total cost of the excess footage over fifty (50)
feet per customer to be deposited with the utility by the applicant
or applicants, based on the average estimated cost per foot of the
total extension. The total cost shall likewise include all
necessary equipment, including in-line booster pumps and
electricity for same, if required, in order to insure that the
water provided to the applicant or applicants shall be delivered in
accordance with Public Service Commission policy for pressure. The
District shall be responsible for maintaining the line thereafter.

(b) Each customer who has paid for service under this
extension policy shall be reimbursed as follows:

A. For a period of five (5) years after construction of the
extension, each additional customer whose service line is directly
connected to the extension installed, and not to extensions or

laterals therefrom, shall be required to contribute to the cost of the extension based on recomputation of both the utility's portion of the total cost and the amount contributed by the customers. The utility shall refund to those customers that have previously contributed to the cost of the extension that amount necessary to reduce their contribution to the current calculated amount for each customer connected to the extension. All customers directly connected to the extension for a five (5) year period after it is placed in service shall contribute equally to the cost of construction of the extension. In addition, each customer shall pay the approved tap-on fee applicable at the time of his application for the meter connection. The tap-on fee shall not be considered part of the refundable portion of the extension and may be changed during the refund period. After the five (5) year refund period expires, any additional customer shall be connected to the extension for the amount of the approved tap-on fee only. The total amount refunded shall not exceed the amount paid the utility. No refund shall be made after the refund period ends.

3. Any applicant desiring an extension of waterline to a proposed real estate subdivision or to any other extension for any purpose shall be required to pay the entire cost of the extension, including all professional services. Any additional equipment required to be installed to insure that such extension shall properly function shall be included in the cost of such extension to be paid by the applicant. Each year, for a refund period of ten (10) years, the utility shall refund the applicant for the extension a sum equal to the cost of fifty (50) feet of the extension installed for each new customer connected during the year whose service line is directly connected to the extension installed by the developer, and not to extensions or laterals therefrom. The total amount refunded shall not exceed the amount paid to the utility. No refund shall be made after the refund period ends.

LEAK ADJUSTMENT TARIFF FOR
HIDDEN UNDERGROUND LEAK

Muhlenberg County Water District hereby amends its hidden leak adjustment for all its customers, commercial and residential, effective upon the approval of same by the Public Service Commission of the Commonwealth of Kentucky and which replaces the policy approved by the Public Service Commission of September 10, 1998.

Each customer of the District shall be entitled to a one time leak adjustment for leaks hidden in the service line between the meter and the premises. The adjustment is available to residential and commercial customers. To obtain the leak adjustment the customer must provide a plumber's statement or list of materials showing that the leak has been repaired. After verification of repairs the customer's bill will be adjusted by utilizing the customers average usage for the past twelve (12) months preceding the date of the claimed leak, omitting the usage measured during the billing period for the leak. The customer shall be charged for their average usage bill. Any usage over the average including the amount of the month of the leak shall be billed at the District's wholesale rate. If the amount of the adjusted bill shall be over one hundred dollars (\$100.00), the customer shall have ninety (90) days to pay the entire bill but if it is under one hundred dollars (\$100.00), the customer must pay same in sixty (60) days for the date of the calculation.

The Muhlenberg County Water District reserves the right to inspect all repairs and verify any information desired before making any adjustments for a claimed hidden leak.

CONTRACT FOR WATER SERVICE

THIS CONTRACT is made and entered into this _____ day of _____, 1993, by and between the MUHLENBERG COUNTY WATER DISTRICT, a body corporate, and the TODD COUNTY WATER DISTRICT, a body corporate.

WITNESSETH:

That whereas, the Muhlenberg County Water District and the Todd County Water District have each been organized and established under the provisions of Chapter 74 of the Kentucky Revised Statutes for the purpose of constructing and operating water supply distribution systems serving water users within their respective districts; and whereas, Muhlenberg County Water District serves a territorial area encompassing Muhlenberg County and Todd County Water District serves a territorial area encompassing Todd County and a designated portion of Logan County; and whereas, certain residents of Muhlenberg County residing in the geographical area described on the plat attached hereto and labeled "Exhibit A" (hereinafter referred to as the contract service area) desire and have need of water service; and whereas, it is presently impractical for the Muhlenberg County Water District to extend water service to Muhlenberg County residents in the contract service area from existing lines owned by the Muhlenberg County Water District due to the lack of water pressure, rocky terrain features and long distance from any existing distribution line; and whereas, ^{PUBLIC SERVICE COMMISSION} ^{OF KENTUCKY} ^{EFFECTIVE} the desire of the Muhlenberg County Water District to contract with the Todd County Water District to provide service to Muhlenberg

PURSUANT TO 807 KAR 5:011.
SECTION 9 (1)

BY: Shirley Hallett
PUBLIC SERVICE COMMISSION MANAGER

County residents residing within the contract service area which property lies wholly within the jurisdictional limits of the Muhlenberg County Water District;

NOW, THEREFORE, for and in consideration of the mutual covenants and agreements herein contained, it is understood and agreed as follows:

1. This contract is made pursuant to the provisions of KRS 74.414, and no monetary consideration is being paid to or received by the Muhlenberg County Water District or the Todd County Water District except as specified below. Additional consideration for this contract is the general benefit which will accrue to water customers residing within the jurisdictional limits of the Muhlenberg County Water District in the specific geographical area described on the attached plat.

2. The Todd County Water District agrees to provide water service to the area described on the attached plat for and on behalf of the Muhlenberg County Water District. As compensation for the service so provided, the Muhlenberg County Water District hereby assigns to the Todd County Water District the right to receive all tap fees and payments for water service due from water customers within the contract service area. The Todd County Water District shall bill for water services directly to customers within the contract service area. The rate schedule applicable to water customers served under this contract shall be equal to the rates charged by the Todd County Water District to residents within the jurisdictional area of the Todd County Water District.

AUG 6 1993

3. It is agreed and understood that all water lines, meters and equipment which were heretofore or may hereafter be located within the jurisdictional area described on the attached plat are and shall continue to be the property of the Muhlenberg County Water District, and the Todd County Water District shall acquire no ownership interest in this distribution system. The Todd County Water District shall maintain all water distribution systems and shall provide water service to customers within the contract service area in accordance with the rules and regulations of the Public Service Commission and in the same manner as provided to customers located within the territorial area of the Todd County Water District. It is understood and agreed that Muhlenberg Water District will not be responsible for any expense associated with the actual installation of water distribution mains, meters and other appurtenances within the territorial area which is the subject of this agreement.

4. It is understood and agreed that this contract is a service contract and it shall not be construed as an extension of the territorial and/or jurisdictional area of the Todd County Water District into Muhlenberg County within the meaning of KRS 74.020 or any other applicable statute or regulation.

5. This contract shall be for an initial term of five (5) years from the date of its execution, and it shall be automatically renewed for successive five year terms unless cancelled by either party in writing delivered to the other party prior to expiration of any term.

SECTION 9(1)

BY: *Cheryl Miller*

6. Service to the customers residing within the designated Muhlenberg County territory shall be governed according to the policies, rules, water service rates and regulations of the Todd County Water District during the period of the contract.

7. The Todd County Water District shall provide water service and water to the customers of Muhlenberg County Water District in the territorial area covered by this Agreement with such pressure and such quality as shall be required from time to time by the Public Service Commission of Kentucky. It shall hold the Muhlenberg County Water District harmless from all liability whatsoever associated with the providing of said water service during the term of this contract.

8. This contract is part of a settlement agreement arising out of a Complaint filed before the Commonwealth of Kentucky, Public Service Commission, the same being Case No. 93-070, and this Contract is subject to the approval of the Public Service Commission of Kentucky.

9. The terms of this service contract shall be automatically deemed to apply to any resident of Muhlenberg County who is actually receiving direct water service or purchasing water from the Todd County Water District as of the date of execution of this contract.

This Contract shall be binding upon the successors and assigns, if any, of the Muhlenberg County Water District and the Todd County Water District.

IN WITNESS WHEREOF, the parties hereto, acting under the authority of their respective governing bodies, have caused this

CLASSIFICATION OF SERVICE

WATER DEPOSIT POLICY FOR WATER SERVICE APPLICANTS

Effective with the approval of this tariff by the Public Service Commission, each applicant for water service in the territory covered by the Muhlenberg County Water District shall pay a deposit equal to twice one months average bill, which shall be paid before any water service is supplied. Said deposit shall be held until said applicant leaves the system at which time the applicant for service will be refunded their deposit plus any applicable interest which may be due, minus any portion of the deposit required to satisfy any delinquencies of bills owed to the District. The average monthly water bill shall be adjusted on an annual basis as of January 1st of each year, the first of which shall be as of the effective date of this tariff for the remaining portion of the year 2000 and thereafter on January 1st.

At the time the applicant for water service may leave the system the District shall pay to the customer interest on the deposit at the rate of interest paid to the District on the funds invested for such deposits but the rate of interest shall never exceed 6%. The interest on the deposit shall be credited to the customers account on an annual basis provided the customers account is current. If it is not current any interest shall remain with the deposit to be applied against any potential delinquency.

If the customer leaves the District and there is a deficiency owed the District after applying the applicable deposit and any accrued interest, the customer shall be liable for such amount owed as an open account. No new account shall be opened for their benefit until any arrearage is satisfied.

The procedure for monitoring of customer usage by the Muhlenberg County Water District is as follows:

- (1) The computer program of the Company prints out an edit list on all customers and compares customer usage with the 12 months immediately preceding that period. If the usage varies, a "usage varies" comment appears beside the customer's usage.
- (2) The information is studied, and if determined that the customer may have a possible problem, a letter is sent to the customer informing them of the usage variation. They are instructed of ways of determining a leak.
- (3) Where the deviation in the customer's usage is not otherwise explained, the Company will test the customer's meter to determine whether it shows an average error greater than 2 percent fast or slow.
- (4) The Company will notify the customers of the investigation, its findings, and any refunds or backbilling in accordance with 807 KAR 5:006, Section 10(4) and (5).

RULES AND REGULATIONS

SUBJECT: Charges For Special Services

The following charges for Special Services shall be made:

1. Delinquent Service Charge. A reconnection charge of \$10.00 shall be made if reconnected during regular working hours.
2. Meter Reading Recheck Charge. A charge of \$5.00 shall be made for a trip to recheck a meter reading when the customer requests the meter to be rechecked for a correct reading and the meter was not misread. First trip shall be free.
3. Meter Test Request. Upon request and payment of \$10.00, a customer may have his meter tested provided request by the customer is not more frequent than one each twelve months. If such test shows the meter to be more than two percent fast or slow, a refund of the \$10.00 charge shall be made and the bill adjusted accordingly.
4. PSC Meter Test Complaint. Any customer of the District may request a meter test by written application to the Commission.
5. Service Investigation Charge. A charge of \$10.00 per trip shall be made for service investigation during regular working hours if interruption of service is not caused by failure of District's facilities. Any maintenance and repair of facilities beyond District's delivery point is the responsibility of the customer.

RULES AND REGULATIONS

6. Billing. The above rates and charges are net. In the event that any bill is not paid within ten days from the date of bill, there shall be added to the bill an amount equal to ten percent of the net amount of the bill. Discontinuance of service for non payment of bill shall not be implemented until after twenty days from the date of the bill and consumer had been personally contacted and given a forty-eight hour notice of discontinuance of service.
7. Deposit. A deposit or suitable guarantee equal to approximately twice one average monthly water bill may be required of any customer before water service is supplied. Upon termination of service, deposit may be applied by the District against any unpaid bills of the customer, and if any balance remains after such application is made, said balance shall be refunded to customer, with 6% interest from date of deposit.
8. Point of Delivery. The point of delivery, is the point where the meter is located on the customer's premises. All water lines, plumbing, and equipment beyond the meter shall be installed and maintained by the customer.
9. Customer's Service Line. All service lines beyond the metering point should be installed of material consisting of copper or PVC pipe with rating of not less than 160 psi. The size of service line beyond the point of delivery should not be less than 5/8"; however, a larger size may be needed to provide adequate service. If the customer's point of use is at a higher elevation than the point of delivery, the customer should consult with a reputable engineering firm to size the service line from the point of delivery.
10. Right of Access. The customer must agree to permit the District to lay, maintain, repair, or remove such water lines which is the property of the District's located on the customer's property with the right of ingress and egress over the customer's property. The District's duly authorized representative and/or other duly authorized employee of the State Health Department bearing proper credentials and identification shall be permitted to enter upon all properties for the purposes of inspection, observation, measurement, sampling, and testing in accordance with the provisions of these Rules and Regulations.

RULES AND REGULATIONS

11. Relocation of Water Facilities. District may, at the request of customer, relocate or change existing District-owned equipment. Customer shall reimburse District for charges at cost including appropriate overhead.
- A. Residential. A contribution in aid of construction as provided in the Schedule of Rates and Charges must be paid on all new connections to the existing water line.
- B. Commercial. Rules and Regulations for commercial service, except as noted below, are the same for residential services.
12. Discontinuance of Service by District. District may refuse to connect or may disconnect service for the violation of any of its Rules and Regulations, or for violation of any of the provisions of the Schedule of Rates and Charges, or of the application of a customer or contract with the customer. District may discontinue service to customer for the theft of water or the appearance of water theft devices on premises of customer. The discontinuance of service by District for any causes as stated in this Rule does not release customer from his obligation to District for payment of minimum bills as specified in application of customer or contract with customer.

All water lines extensions will be in compliance with PSC Rules and Regulations.

AMENDMENT TO TARIFF REGARDING DISCONNECTION POLICY

Item 34 of the tariffs of the Muhlenberg County Water District originally issued September 12, 1988, is deleted in its entirety, and in its place and stead there is asserted the current disconnection policy of the Muhlenberg County Water District which shall be effective on the date of approval by the Public Service Commission, but not earlier than July 1, 2002:

34. All customers are and shall be required to pay the amount of their respective water bills in full and without discount on or before the 15th day following the rendering of the bill for water service. If payment on the account is not received by the 16th day of the regular billing period, then the District shall issue a notice regarding the delinquent account along with a notice of intent to discontinue services nonpayment. The discontinuance of service for nonpayment of a bill shall be implemented on or after the 24th day of the billing period. The water service shall not be restored until the account is paid in full, plus a service charge for discontinuing service and for restoring service as herein provided, plus any deposit required.

=====

AMENDMENT TO WATERLINE EXTENSION POLICY

The Muhlenberg County Water District hereby deletes paragraphs 36 and 37 of the revised tariffs issued on September 12, 1988, and in their place and stead adopts the following policy to be effective on approval by the Public Service Commission of Kentucky:

1. Before any line is extended, it must be determined that the District can supply a proper volume of water at the required applicable pressure mandated by the Public Service Commission. This will be accomplished by proper testing, and an opinion of the engineer for the District shall be obtained either orally or in writing concerning whether the District can supply the water at the proper pressure. Any lines installed shall be installed under the required guidelines of the Muhlenberg County Water District, the Public Service Commission of Kentucky, and the Department of Natural Resources. No line will be installed without complying with all requirements of the District and all applicable rules and regulations of the State of Kentucky.
2. For each proposed water main extension, the District shall determine the total length of the extension. For each new customer on the line who pays the applicable charge for a new service (presently \$350.00 plus any deposit) and guarantees that they will maintain service for at least 12 months by signing a guarantee of service for 12 months at no less than the minimum rate, the District will install, at District's expense, up to 250 feet of line for each new customer who is to be located on the extension and pay said charge. Installation of the line includes providing the pipe, digging the ditch, stubbing the line for the meter, and covering the line.
3. Should the line extension exceed 250 feet, but be less than 1,000 feet, the District will additionally install the line as defined hereinabove provided the customer provides the pipe in accordance with District specifications.

Month Day Year

=====

Date Effective _____
Month Day Year

Muhlenberg County Water DistrictRevised SHEET NO. 6 and 7
CANCELLING P.S.C. KY. NO. _____
SHEET NO. _____

4. Should the line extension exceed 1,000 feet per customer, the District will, if the customer desires, provide the pipe to the customer at cost, plus sales tax which is to be remitted to the State, and the District will install the line for the benefit of the customer for customers on the line extension at a cost of \$.65 per foot for each foot over 1,000 feet per customer for the line extension. Said rate assumes normal digging. Should blasting or other extraordinary expenses be incurred due to being outside the scope of the ability of the District to perform and outside assistance be required, then the added cost of such will be paid by the customers as part of the installation cost above the \$.65 per foot cost and will be a refundable cost should other customers be installed within five years thereafter as provided above. A record shall be maintained on the cost of all piping installed.

5. For a period of five (5) years after the original construction of the main extension, each additional customer who shall be directly connected to the particular extension will be required to contribute to the cost of that water main extension based on a recomputation of the total cost of the original customer's contribution to that line extension. Each new customer during the succeeding five (5) years must pay a sum of money to the District, and the District then refund same to the customers on that line who contributed to the cost of the line a sum of money equal to the cost of that line extension paid by the customers recalculated so that the contribution of each customer to the line extension, including the new customer or customers, is equal. Thus all customers directly connected to each main extension for a period of five (5) years after it is placed in service are to contribute equally to the cost of the construction of that water main extension itself. The cost is that cost paid by the customers for the pipe and the cost paid by the customers for installing the line if installed by the District at the rate of \$.65 per foot for over 1,000 feet, and if not installed by the District by whomever it is installed, but not to exceed \$.65 per foot. Each new customer must pay the applicable "tap on fee" at the time of their

customers directly connected to each main extension for a five-year period after it is placed in service are to contribute equally to cost of construction of the water main extension itself. In addition each customer must pay the approved "Tap-on-fee" applicable at the time of their application for the meter connection. The "Tap-on-fee" is not part of the refundable cost of the extension and may be changed during the refund period. After the five-year refund period expires, any additional customer applying for service on each main extension must be connected for the amount of the approved "Tap-on-fee" only. Also, after the five-year refund period expires, the District will be required to make refunds for an additional five-year period in accordance with 807 KAR 5:066 Section 12(b). *CB-92*

RE-LOCATION OF WATER FACILITIES

38. The District may at the request of the customer relocate or change location of existing District owned equipment. The customer shall reimburse the District for charges at cost, including appropriate overhead for such relocating and any new meter connections requested to be made. Existing connections shall be transferred, and the cost of transfer in residential and commercial properties shall be the same. A commercial meter should not be installed without the prior approval of the Water Commission.

Name of Officer Title Address

42. When the District becomes aware that one of its customers has died, the District shall require that the surviving spouse establish the account in their name if it was otherwise in the name of the deceased however, a new deposit will not be required if one had not been previously on deposit and if the account is otherwise current. If there is no surviving spouse, then the District shall serve notice that service will be discontinued in twenty (20) days unless arrangements are made to have the service continued in the name of another individual. A new deposit will be required for the individual as set out in Paragraph 33 herein.

HYDRANTS

43. Installed throughout the District's service area are hydrants which are for the operation and maintenance of the water distribution systems of the District. The District is not in the business of providing fire protection. The hydrants are flush hydrants and are for the internal operation of the system and are not necessarily designed for fighting fires. The purpose of the hydrant is to allow flushing of the system and testing of the system to assure that water being distributed complies with various standards set by regulatory agencies having jurisdiction over the District. Historically, these hydrants have been called "fire" hydrants. The hydrants may be used for fire protection but the District makes no commitment whatsoever as to the flow rate, pressure or duration of flow that a particular hydrant is capable of performing based on the last inspection of the hydrant. Such information is available upon request. C 9-95

No one should assume or construe the presence of such as representing a particular ability to provide guaranteed flow rate, pressure or duration of flow for a stated period of time. The District will establish a color code system to identify the range of flow, pressure and duration of flow that each hydrant is capable of providing based upon the last testing of said hydrant. This may change from time to time due to the nature of the system and the possibility of unknown intervening factors, including vandalism which may from time to time reduce that pressure, flow or duration of flow. It should never be assumed that a particular hydrant will do anything and it should not be assumed that a particular hydrant will ever be adequate for fire protection.

**POLICY OF MUHLENBERG COUNTY WATER DISTRICT
REGARDING COLLECTION OF DELINQUENT ACCOUNTS**

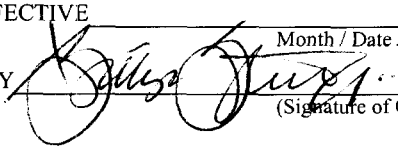

Upon approval of the Public Service Commission, but not earlier than July 1, 2002, the following shall be the policy of the Muhlenberg County Water District:

- (1) Any customer applying for residential or commercial water service with the Muhlenberg County Water District agrees to comply with all rules and regulations of the Muhlenberg County Water District and further agrees to notify the District of any leaks when the same are observed, insure that no one else taps into the water supply line or meter of the Muhlenberg County Water District servicing such customer or otherwise uses water which is unmetered and to otherwise comply with all rules and regulations of the District, including prompt payment of all monthly bills in accordance with the policy of the District. Any customer who does not abide by said conditions for service shall be subject to having their service terminated. Any customer who fails to pay for billed services received and whose service is subsequently discontinued for this failure shall be liable for all court costs incurred to collect the unpaid bill and for any attorneys fees awarded by a court of competent jurisdiction in any legal action to collect the unpaid bill or fees; provided, however, should the Water District turn the account over for collection by a collection agency other than an attorney and the account is collected, the District shall be entitled to receive the fee charged by the collection agency, not to exceed 35% of the amount collected, in accordance with the contract of the collection agency, a copy of which is attached hereto.

AMENDMENT - COST FOR FIRE PLUG INSTALLATION

Effected with the approval by the Public Service Commission the Muhlenberg County Water District upon request to install a fire hydrant shall require a non-refundable deposit of \$527.50 which is an average cost for an engineer certification as to whether a particular location can or cannot be certified as a location for a fire hydrant. If the fire hydrant location can be certified by an engineer as meeting applicable standards for installation of a fire hydrant than the \$527.50 shall be credited against the hereinafter described expense for installation. If the engineer cannot certify the location as one acceptable for a fire hydrant then the charge of \$527.50 shall be applied toward the cost made by the engineer. If it is greater than that amount the Muhlenberg County Water District shall bear responsibility for such charge.

If a fire hydrant is certified by an engineer as being authorized for installation under applicable rules and regulations the cost for installing the fire hydrant including the \$527.50 engineering charge shall be \$2,697.14 in accordance with the attached schedule.

WATER SHORTAGE RESPONSE PLAN

PUBLIC SERVICE
COMMISSION

MUHLENBERG COUNTY WATER DISTRICT

Section 1. Purpose. The purpose of this Plan is to provide for the declaration of official phases of water supply shortages and the implementation of voluntary and mandatory water conservation measures throughout the Muhlenberg County Water District in the event a shortage is declared.

Section 2. Definitions. These terms are applicable only for this Plan unless specifically noted.

- (a) "Customer" shall mean any person or entity using water for any purpose from the Muhlenberg County Water District water distribution system and for which either a regular charge is made or, in the case of bulk sales, a cash charge is made at the site of delivery.
- (b) "Raw Water Supplies" shall mean all water potentially available to persons in the Muhlenberg County Water District.
- (c) "Treated Water" shall mean water that has been introduced by the Muhlenberg County Water District into its water distribution system, including water offered for sale. Uses of treated water are classified as follows:

Essential Water Uses (Class 1):

The following uses of water, listed by site or user type, are essential.

Domestic:

- water necessary to sustain human life and the lives of domestic pets, and to maintain minimum standards of hygiene and sanitation.

Health Care Facilities:

- patient care and rehabilitation, including related filling and operation of swimming pools.

Water Hauling:

- sales of domestic use where not reasonably available elsewhere.

Public Use:

- firefighting,
- health and public protection purposes, if specifically approved by health officials.

PUBLIC SERVICE COMMISSION
OF KENTUCKY
EFFECTIVE

OCT 21 1988
PURCHASED BY KENTUCKY
ACTION 94111
MULLENBERG COUNTY WATER DISTRICT

Socially or Economically Important Uses (Class 2):

The following uses of water, listed by site or user type, are socially or economically important.

Domestic:

- personal, in-house water use including kitchen, bathroom and laundry.

Water Hauling:

- non-domestic, when other sources are not reasonably available elsewhere.

Commercial and Civic Use:

- commercial car and truck washes,
- laundromats
- restaurants, clubs and eating places,
- schools, churches, motels/hotels and similar commercial establishments.

Outdoor Non-Commercial Watering:

- minimal watering of vegetable gardens,
- minimal watering of trees where necessary to preserve them.

Outdoor Commercial or Public Watering (using conservation methods and when other sources of water are not available or feasible to use):

- agricultural irrigation for the production of food and fiber or the maintenance of livestock,
- watering by arboretums and public gardens of national, state, regional or community significance where necessary to preserve specimens,
- watering by commercial nurseries at a minimum level necessary to maintain stock,
- watering at a minimum rate necessary to establish or maintain revegetation or landscape plantings required pursuant to law or regulation,
- watering of woody plants where necessary to preserve them,
- minimal watering of golf course greens.

Recreational:

- operation of municipal swimming pools and residential pools that serve more than 25 dwelling units.

Air Conditioning:

- refilling for startup at the beginning of the cooling season,
- make-up of water during the cooling season,
- refilling specifically approved by health officials where the system has been drained for health protection or repair services.

Non-Essential Uses (Class 3):

Any waste of water, as defined herein, is non-essential. The following uses of water, listed by site or user type, are non-essential.

Public Use:

- use of fire hydrants (excluding Class 1 and Class 2 uses), including use of sprinkler caps, testing fire apparatus and fire department drills,
- flushing of sewers and hydrants except as needed to ensure public health and safety as approved by health officials.

Commercial and Civic Use:

- serving water in restaurants, clubs, or eating places, except by customer request,
- failure to repair a controllable leak,
- increasing water levels in scenic and recreational ponds and lakes, except for the minimum amount required to support fish and wildlife.

Ornamental Purposes:

- fountains, reflecting pools and artificial waterfalls.

Outdoor Non-Commercial Watering:

- use of water for dirt control or compaction,
- watering of annual or non-woody plants, lawns, parks, golf course fairways, playing fields and other recreational areas,
- washing sidewalks, walkways, driveways, parking lots, tennis courts or other hard-surface areas,
- washing down buildings or structures for purposes other than immediate fire protection,

PUBLIC SERVICE COMMISSION
OF KENTUCKY
EFFECTIVE

1988

APPROVED BY THE BOARD OF
PUBLIC UTILITIES
JULY 1, 1988

- flushing gutters or permitting water to run or accumulate in any gutter or street.

Outdoor Commercial or Public Watering:

- expanding nursery facilities, placing new irrigated agricultural land in production, or planting of landscaping except when required by a site design review process,
- use of water for dirt control or compaction,
- watering of lawns, parks, golf course fairways, playing fields and other recreational areas,
- washing sidewalks, walkways, driveways, parking lots, tennis courts or other hard-surface areas,
- washing down buildings or structures for purposes other than immediate fire protection,
- flushing gutters or permitting water to run or accumulate in any gutter or street.

Recreational uses other than those specified in Class 2.

Non-commercial washing of motor and other vehicles.

Air Conditioning (see also Class 2 purposes):

- refilling cooling towers after draining.

- (d) "Base Entitlement" shall mean the monthly usage for a customer during the same month of the preceding calendar year or the average per customer usage for each class of service during the same month of the preceding year.
- (e) "Curtailed Entitlement" shall mean the monthly usage for a customer after any curtailment percentage has been applied.
- (f) "Curtailment" shall mean the reduction in entitlement by some percentage to meet anticipated water shortages.
- (g) Water Shortage Response Phases:

"Advisory" shall mean that conditions exist which indicate the potential for serious raw or treated water supply shortages.

"Alert" shall mean the raw or treated water supplies are consistently below seasonal averages, and if they continue to decline, may not be adequate to meet normal needs.

"Emergency" shall mean that raw or treated water supplies are below the level necessary to meet normal needs and that serious shortages exist in the area.

- (h) "Rationing" shall mean that procedures must be established to provide for the equitable distribution of critically-limited raw or treated water supplies, in order to balance demand and limited available supplies, and to assure that sufficient water is available to preserve public health and safety.

Section 3. Applicability. The provisions of this Plan shall apply to all retail and wholesale customers of the Muhlenberg County Water District. When implemented, this Plan becomes Muhlenberg County Water District's Water Shortage Response Regulation.

Section 4. Entitlements. Entitlements shall be established for each customer by adjusting the base entitlement to reflect any known change in usage pattern.

Section 5. Determination of Water Shortage. Water supply and usage shall be monitored on a continuous basis. Unrestricted demand shall be projected from past records and adjusted for changes such as new developments and weather conditions on a regular basis. (Note: A sample calculation page is attached as Appendix A to assist in determining overall water levels. It is important that accurate water measurements be used.) Water shortages generally occur for two reasons, a reduction in available supplies or a system failure. Each of these has a distinct influence on the nature and duration of the conservation programs implemented. Official declaration of a water shortage stage and implementation of the measures necessary to curtail water use shall be approved by the manager and Muhlenberg County Water District Board of Commissioners.

Section 6. Term of Water Shortage Declaration. Any water shortage declaration shall remain in effect until water supplies of service conditions have returned to normal. A final determination as to terminating a water shortage declaration shall be made by the Muhlenberg County Water District Board of Commissioners.

Section 7. Water Shortage Stage, Criteria, Conservation and Curtailment Measures.

A. Advisory Stage:

- (1) Criteria: A water advisory shall be declared when the amount of treated water available is projected to be up to 10% below demand, or there are periods of no water pressure in one or more areas of the distribution system due to system failure or inadequacies or the State Division of Water issues a Water Shortage Watch which includes the areas from which the Muhlenberg County Water District draws water.
- (2) Conservation and Curtailment Measures:
 - (a) Declare a Water Shortage Advisory.
 - (b) Provide proper notice to all customers and to all local news media.
 - (c) Eliminate water leaks.

- (d) Request voluntary conservation of all non-essential (Class 3) water use.
- (e) Request wholesale customers also issue request for voluntary conservation by their customers of all non-essential (Class 3) water use.

B. Alert Stage:

- (1) Criteria: A water alert shall be declared when the amount of treated water available is projected to be up to 15% below demand, or water supplies are consistently below seasonal averages and if they continue to decline, may not be adequate to meet normal needs.
- (2) Conservation and Curtailment Measures:
 - (a) Declare Water Shortage Alert.
 - (b) Provide proper notice to all customers and to all local news media.
 - (c) Eliminate water leaks.
 - (d) Prohibit all non-essential (Class 3) water uses.
 - (e) Curtail entitlements to all customers by the same percentage as the projected shortage.
 - (f) Begin billing all customer water usage in excess of curtailed entitlement at double the normal rate.

C. Emergency Stage:

- 1. Criteria: A Water Emergency shall be declared when the amount of treated water available is projected to be up to 20% below demand, or there are periods of no water in one or more areas of the distribution system due to water supplies below the level necessary to meet normal needs.
- 2. Conservation and Curtailment Measures:
 - (a) Declare Water Shortage Emergency.
 - (b) Provide proper notice to all customers and to all local news media.
 - (c) Eliminate water leaks.
 - (d) Prohibit all Class 3 uses of water.
 - (e) Prohibit all Class 2 use of water except domestic uses for kitchens, bathrooms and laundries.

PUBLIC SERVICE COMMISSION
OF KENTUCKY
EFFECTIVE

OCT 31 1988

PURSUANT TO KRS 9.011.

BY: [Signature]
P. J. LEBEL, COMMISSIONER

- (f) Curtail all commercial and industrial entitlements (except Health Care Facilities) by 100%.
- (g) Curtail Residential entitlements by the same percentage as the projected shortage.
- (h) Curtail entitlements to all wholesale customers by the same percentage as the projected shortage.
- (i) Begin billing all customers water usage in excess of curtailed entitlement at double the normal rate.

D. Rationing Stage:

1. Criteria: Treated water available is greater than 20% below demand or water supplies are below the level necessary to meet essential needs, and in the opinion of the Muhlenberg County Water Board of Commissioners, mandatory rationing is required to insure adequate water is available to maintain public health and safety.

PUBLIC SERVICE COMMISSION
OF KENTUCKY
EFFECTIVE

OCT 31 1988

PURCHASED TO 807 KAR 5:011.
SECTION 9.01

BY: [Signature]
DATE: 10/27/88

2. Conservation and Curtailment Measures:

- (a) Declare Water Shortage Rationing.
- (b) Provide proper notice to all customers and to all local news media.
- (c) Eliminate water leaks.
- (d) Prohibit all Class 3 and Class 2 uses of water.
- (e) Curtail all commercial and industrial entitlement (except Health Care Facilities) by 100%.
- (f) Curtail all residential and wholesale entitlements by the same percentage as the projected shortage.
- (g) Implement service interruptions to portions of system in accordance with approved published schedule. The schedule shall be provided to all local media.
- (h) Begin billing customer water usage in excess of curtailment entitlement at double the normal rate.

Section 8. Enforcement Water Restriction. Any person who violates the provisions of this Plan, who fails to carry out the duties and responsibilities imposed by this Plan, or who impedes or interferes with any action undertaken or ordered pursuant to this Plan shall be subject to the following:

- (a) If the utility official charged with implementation and enforcement of this Plan learns of any violation of any water use restriction imposed, a written notice of the violation shall be affixed to the property where the violation occurred and mailed to the customer of record. Said notice shall describe the violation and order that it be corrected, cured or abated immediately or within 48 hours.
- (b) The notice will inform the customer of his or her right to appeal by requesting a hearing before the utility's designee. If a hearing is requested by the customer, he or she shall be given full opportunity to be heard before termination. The governing body shall make findings of fact and decide whether service should continue or terminate.
- (c) Any customer whose water service is terminated for violating provisions of this water curtailment plan shall be subject to the approved reconnection fee prior to reconnection of service.
- (d) The excess usage charge billing provisions of this Plan shall not be put in effect if a county or city ordinance containing penalty provisions is in effect to assist enforcement of this Plan.

Section 9. Request for Exception.

(a) Exception to water use restrictions: If compliance with any curtailment measure authorized herein would cause a customer to bear extraordinary hardship, that individual or entity may apply to the Muhlenberg County Water District for an exception. For these purposes, "extraordinary hardship" shall be defined as a condition which may threaten health and safety, or cause property or economic losses, each of which must be shown to be substantially more severe than the sacrifices borne by other users. If extraordinary hardship is found to exist, then an exception shall be granted and a written waiver issued to the customer. If an appeal is made, water service shall be continued until a decision is announced. Any person aggrieved by the decision may file a complaint with the Public Service Commission.

(b) Exception to curtailment surcharge: Exceptions to excess use charges shall not be considered or granted.

Section 10. Severability. If any provision of this Plan is declared invalid by the courts, the remainder of the Plan and its applicability to other persons and circumstances shall not be affected by that declaration.

Section 11. Effective Date. This Plan shall take effect immediately upon approval by the Public Service Commission.

APPENDIX B
MUHLENBERG COUNTY WATER DISTRICT
PRESS RELEASE
ADVISORY STAGE

Muhlenberg County Water District - Due to the recent abnormally dry weather conditions and with little indication of significant rainfall in the foreseeable future, customers of Muhlenberg County Water District should begin conserving water according to the General Superintendent. For the month of _____, the National Weather Service reported that this area received _____% of normal rainfall. The 30-day outlook calls for _____.

A local water shortage ADVISORY has been declared by the Board of Commissioners of Muhlenberg County Water District. At this time, there is an immediate need to begin voluntary conservation measures. All business and commercial establishments are being requested to develop in-house conservation plans.

The amount of treated water available is 5% to 10% below projected demand, and/or there are periods of low water pressure in one or more areas of the distribution system due to low water supply, or the State Division of Water has issued a Water Shortage Watch for our area.

According to Kentucky Division of Water, Water Shortage Department, consumers can cut water use by as much as 15% with very little difficulty or discomfort by using voluntary water conservation measures.

All non-essential uses of water should be minimized.

Special Conservation Tips include:

1. Check toilet for leaks and have leaks repaired.
2. Do not use toilet as ashtray or wastebasket.
3. Put plastic bottles in toilet tank.
4. Take shorter showers.
5. Install water saving shower heads or flow restrictors.
6. Take baths.
7. Turn off water after wetting toothbrush.
8. Rinse razor in sink instead of letting water run.
9. Check faucets and pipes for leaks and have repaired.
10. Use automatic dishwasher for full loads only.
11. Wash full loads of clothes only.
12. If dishes are hand-washed, do not let water run to rinse them, fill the sink.
13. Don't let the faucet run to rinse vegetables.
14. Keep a bottle of water in the refrigerator.
15. Water the lawn only when it needs it. Water it at night and deep soak. Don't water the gutters, sidewalks, driveways, etc. Don't water on windy days.
16. Place a layer of mulch around trees and plants.
17. Use a broom to clean driveways and sidewalks, not a hose.
18. Do not run the hose when washing vehicles.
19. Do not let children play with the hoses and sprinklers.

APPENDIX C
MUHLENBERG COUNTY WATER DISTRICT
PRESS RELEASE
ALERT STAGE

Muhlenberg County Water District - A water shortage ALERT has been declared for the Muhlenberg County Water District.

The amount of treated water available is 10% to 15% below projected demand, and/or there is consistent low pressure in one or more areas of the distribution system due to low water supply.

Under the ALERT, and in order to ensure adequate supplies for necessary uses, Muhlenberg Water District customers are urged to practice conservation in all use of water. Class 3 Non-essential water use is prohibited. The Muhlenberg County Water District Water Shortage Response Plan Class 3 Non-essential use includes the following:

CLASS 3 USES OF WATER:

1. Decorative fountains, reflecting pools, artificial waterfalls, and any other decorative uses of water.
2. Watering of gardens, lawns, parks, golf course (except greens), playing fields and other recreation areas.
3. Filling of public, private, commercial, or residential swimming and wading pools.
4. Personal washing of motor vehicles, boats and trailers, driveways, etc.
5. Serving water in restaurants, clubs, or eating places unless specifically requested by the customer.
6. Filling of ponds.

Conservation of all water uses, accompanied by these restrictions, can reduce water use by 15 to 30 percent. The Muhlenberg County Water District users can prolong limited water supplies, avoiding further restrictions, by observing these prohibitions and conserving water at all times.

If everyone cooperates, Muhlenberg County Water District and its customers can cut usage significantly.

If there are questions or suggestions, they can be mailed to Muhlenberg County Water District, P.O. Box 348, Greenville, Kentucky 42345, or can be placed by phone at (502) 338-1300.

The entire staff of Muhlenberg County Water District appreciates the efforts of all individuals to help in this situation.

APPENDIX D

MUHLENBERG COUNTY WATER DISTRICT
PRESS RELEASE
EMERGENCY STAGE

This press release is to be written according to the terms of the emergency stage in the water shortage response plan.

The amount of treated water available is 15% to 20% below projected demand, or there are periods of no pressure in one or more areas of the distribution system due to low water supply and mandatory restrictions on the use of water are necessary to insure equitable distribution of available supplies.
